INTRODUCTION

Hill Directory Co., Inc., publishers of the Wilmington City Directory, present to subscribers and the general public, this, the 1930 edition of the Wilmington Directory.

Confidence in the continued growth of Wilmington’s industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Wilmington to the world.

The enviable position occupied by Hill’s directories in the estimation of the public, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Wilmington Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The several essential departments are arranged in the following order:

THE BUYERS’ GUIDE, pages 17 to 52, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Wilmington. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The city’s activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Wilmington, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 53 to 526. A feature of this section is the inclusion of the wife’s name in parentheses following that of the husband.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 529 to 633. In this section the named streets and avenues are arranged in alphabetical order, followed by the numbered streets in numerical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 637 to 707. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. “The Directory is the common intermediary between Buyer and Seller.” As such
it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

**Municipal Publicity**

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Wilmington, for business men, everywhere, realize that the city directory represents a community as it really is.

**The Wilmington Directory Library**

Through the courtesy of the publishers of the Wilmington City Directory, a Directory Library is maintained in the offices of the Wilmington Chamber of Commerce, for free reference by the general public. This is one of nearly 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.,
Publishers.
Statistical Review
Form of Government—Commission.
Population—37,500, local estimate. Native-born, 99.7%.
Area—4.5 square miles.
Altitude—30 feet.
Climate—Mean annual temperature, 63 degrees; average annual rainfall, 53 inches.
Parks—4, with 225 acres valued at $300,000.
Assessed Valuation—$45,000,000.
City’s Bonded Debt—$3,152,700.
Financial—5 banks, with total deposits of $28,000,000, and clearings of $300,000,000 annually.
Post-office Receipts—$225,000 (last annual report).
Telephones in Service—4,500.
Churches—70, all denominations.
Building and Construction—Value of building permits, approximately $1,000,000, with 300 new dwelling units constructed (last annual report).
Industry—110 establishments employing 14,000 men and 5,700 women, paying wages of $14,000,000 annually, and having products valued at $50,000,000 annually.
Principal Products—Fertilizer, petroleum products, cotton goods and molasses.
Trade—Retail territory serves 225,000 people in a trading area having a radius of 75 miles. Jobbing territory serves 400,000 people within a radius of 150 miles.
Newspapers—2 dailies (morning and evening).
Hotels—4, with total of 400 rooms. Newest hotel built in 1926.
Railroads—3: Atlantic Coast Line, Seaboard Air Line and Wilmington, Brunswick & Southern.
Amusements—4 theatres, with total seating capacity of 4,200 persons.
Hospitals—5, with 255 beds.
Education—8 schools, including 2 high. Number of pupils in public schools, 7,597; in private, 450. Total number of teachers, 182. Value of all school property, private and public, approximately $1,800,000.
Volumes in Library—18,000.
City Statistics—Total street mileage, 150, with 54 miles paved. Miles of gas mains, 71; of sewers, 74, and of electric street railway, 21. Daily average pump of water works, 3,000,000 gallons, with plant valued at $1,250,000. Fire department employs 60 men, with 1 auto, 1 steamer engine, 5 hose and chemical wagons and 1 hook-and-ladder truck, in 4 station houses. Value of fire department with property, $160,097.63. Police department has 42 men, with 1 station and 5 pieces of motor equipment.
INTRODUCTION

General Review

Wilmington is strategically situated on the Cape Fear River, blessed by nature with a variety of resources and kept up-to-date by the hand of man. It possesses both trunk line rail and deep-water transportation, which gives it low freight rates and permits quick freight movements in great volume.

Wilmington is both important as a port and as an industrial city, while it is the pivotal point for a rich and large agricultural area, and is the trading center for fully 225,000 people, the city being their nearest, as well as largest, market.

As a port, it possesses a fresh-water harbor 28 miles from the bar. Ice is an unknown quantity in the river, which has a deep channel, up and down which go big ocean steamers, bound for Europe, Latin America and other foreign shores. The Federal Government has recently authorized a deepening of the channel in the river to thirty feet at mean low water, and is extending the Intra-Coastal Canal from Beaufort to Wilmington.

Wilmington's exportations and importations are large and ever-growing, which mark a successful port. As a cotton port, it sends forth approximately two hundred thousand bales per year, and this record is evidently going to be surpassed. Its imports cover a large field in variety and come from practically every quarter of the globe. Wilmington ranks as the second largest fertilizer port on the Atlantic Seaboard and its volume of petroleum products is such that practically seventy-five per cent of the state's consumption passes through the port. Wilmington also has a tremendous volume of molasses importation, which serves a half dozen States, as well as a large amount of lumber handled in both coast-wise and foreign trade.

Within the past year or two the population of Wilmington has increased in a tremendous way, and it is now a city of nearly 40,000, housed in comfortable homes. To accommodate the increasing population, not only have individuals built homes, but the citizens formed what is known as the Victory Home Company, with an authorized capital of a million dollars and paid in capital of $250,000 to erect houses, which object has been successfully carried out.

Regardless of conditions the year has already witnessed preparations for big building operations. Among recent enterprises located here are several large new fertilizer factories, a large ready-cut house plant of the Aladdin Company, the Atlantic Refining Company, the Galena Signal Oil Company, the American Molasses Company, Southland Manufacturing Co., Wilmington Veneer Corp., Dupont Nitrates Co., W. R. Grace & Company, Nehi Bottling Co., Corbett Crate Co., Mavis Crate Co., Coastal Cross-Arm and Conduit Company, National Oil Company, Shell Oil Company, and others, thus supplementing the city's already large number of such industries.

Wilmington is the natural gateway of North and South Carolina, intermediate between the whole territory and Richmond.

Wilmington is North Carolina's seaport city, the gateway of her commerce and trade. North Carolina is a vast state in area, larger than New York or Pennsylvania, and
almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all of New England had only one such distributing seaport, and it will then be realized why Wilmington must grow and is growing to meet the demands of this vast territory whose bountiful natural resources have hardly been touched.

From the Middle West the Panama Canal is in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington will not be subject to the dangers of Cape Hatteras.

Wilmington is the center of the greatest vegetable-producing district in the United States. A few years ago no strawberries were raised except for domestic use; now Wilmington is the center of the largest strawberry-raising district in the world. It is the largest lettuce-producing district in the world, and next to the largest peanut market.

Wilmington’s outlets by rail and water are the Atlantic Coast Line and Seaboard Air Line systems; Wilmington, Brunswick & Southern Railway, the Clyde Steamship Line to New York, Railway Express Agency Inc., and foreign services.

Wilmington has a wonderful climate; no extreme heat or extreme cold. Average summer temperature, 78 degrees; average winter temperature, 48 degrees. The normal rainfall is 53 inches, average annual clear days, 132 (New York, rainfall, 44 inches; clear days, 118; New Orleans, rainfall, 57 inches; clear days, 109). The mild climate and diversified opportunities make this city and section a haven for home-seekers.

The Wilmington district is one of the greatest trucking regions in the United States, and the yield for this early crop reaches the sum of nearly eighteen million annually.

Nearest Atlantic port to the Ohio gateways, and nearer Cincinnati than Charleston by fifteen miles, and Savannah, by thirty miles.

One of the largest distributing points south of Baltimore for products of the Standard Oil Company.

Has immense terminals that can load sixteen ocean-going ships at one time, providing them with over 600,000 square feet of warehouse space.

In the late war Wilmington had two immense shipyards, properties having been converted into industrial and civil uses. It had the honor of possessing the only Government-owned steel shipyard in the South, and first Government-owned concrete yard in the country.

The commerce on the Cape Fear River at and below Wilmington last year averaged approximately 1,250,000 tons, with valuation of more than $82,000,000.

South of Hatteras, thus assuring safety to vessels from Latin America and other countries to the south of the United States, this port occupies a strategic position of advantage to such countries.

Cape Fear River never has ice, which permits year-round navigation, and climate is never too cold to make outdoor work a hardship or discomfort.
INTRODUCTION

Wilmington has many fertilizer factories, petroleum products terminals, lumber plants and a number of fish packing plants, employing thousands of men.

It has the handsomest custom house in the South, the cost of which was more than $700,000.

Next terminal of inland waterway canal, this link being from Beaufort to the Cape Fear River. Board of Engineers has recommended extension, work on which was started twelve months ago and will be finished in the fall of 1931. This will provide accommodations for large traffic over a protected inland channel twelve feet deep and ninety feet wide.

Wilmington has two immense cotton compresses and a marine railway. The steel shipyard operated during the war by the George A. Fuller Company is being converted into an industrial center. The concrete shipyard property is owned by the city and will be developed into municipal wharves and public terminals and warehouses. This has been offered the State of North Carolina as a location for state-owned terminals and warehouses, whenever same are necessary. Wilmington now has one of the finest and most efficiently operated systems of private terminals at any southern port, and the city’s principal stevedoring corporation holds the record for all South Atlantic ports for quick despatch of cargo.

With both water and rail transportation, thus affording quick hauls and low freight rates, and near the scenes of raw material, Wilmington is a splendid spot for manufacturing industries. Two big railroad systems—the Atlantic Coast Line and Seaboard Air Line—place the city near the great coal fields and the iron-producing zones.

Wilmington has manufacturing plants of many kinds, cotton garments mills, wood and metal works, cement concerns, cotton factories, candy factories, ready-cut house plant, modern machine shops, many big fertilizer factories, sawmills, oil stations, etc.

A modern cold storage plant is located here.

The city has many immense fertilizer factories, and two have recently been built.

Leading banking center of state, its banks having total deposits of approximately $28,000,000. Growing steadily all the time.

Jobbing business goes over $80,000,000 annually, and retail merchants do a wide business, as the city is the trading mecca for a section containing over 225,000 people.

City of big weekly payrolls. Annual payrolls $14,000,000, distributed among thousands of employees.

Headquarters of Atlantic Coast Line System, employing locally about twenty-two hundred men and women. Monthly payroll of Coast Line nearly $400,000.

Wonderful all year-'round climate, and a health record praised by the United States Government.

The Wilmington section has crop-growing days to the number of 250, which is the equal of Northern Mexico, though with the advantage of an ample and equable rainfall.
Wilmington is the terminus of six major highways of North Carolina's splendid good roads system, and the city is also an important point on the Atlantic Coastal Highway extending from Portland, Maine, to Miami, Fla.; the Calhoun Highway from Athens, Ga., to the ocean at Wilmington, and Federal Routes 17 and 17-I.

Wilmington is a city of fine streets, beautiful homes, great churches and modern schools, in a county netted by good roads, the superior not to be found anywhere.

It is a place of modern amusements, with best beach resorts on South Atlantic Coast within thirty minutes' ride of the city. Wrightsville Beach, eight miles east of the city, is an island resort of fame and renown. It is connected with the mainland by excellent half-hour trolley service and cause-way to Harbor Island just west of the beach. Carolina Wilmington and Fort Fisher beaches, south of the city, are the only resorts on the North Carolina coast where one can drive directly to the ocean in an automobile. The four beaches attract approximately 300,000 visitors every summer.

The Wilmington Chamber of Commerce is aroused to the city's great advantages and is eager to answer all questions and extend hearty co-operation. Write the Chamber of Commerce for any information desired.
The Buyers' Guide contains the advertisements and business cards of the most progressive business men and firms in our city, classified according to lines of business.

NATIONAL ADVERTISERS

Are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the City Directory. Put "See the City Directory for our local agent" on all your advertising, and see to it that he is listed under all the classifications of your line.

LOCAL ADVERTISERS

Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.
MORE GOODS ARE BOUGHT AND SOLD THROUGH THE CLASSIFIED BUSINESS LISTS OF THE DIRECTORY THAN ANY OTHER MEDIUM ON EARTH
The purpose of our organization is not merely to sell printing but to help you sell more goods through printing that sells....

“Quality and Service”
HILL'S
WILMINGTON
Directory of Householders, Occupants of Office Buildings and Other Business Places
INCLUDING
A Complete Street and Avenue Guide 1930
Copyright, 1930, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names. *** Denotes no houses between intersections where this appears. (c) Denotes colored.

The Alphabetical Section---
A guide to the population, its activities and addresses.

The Buyers’ Guide---
To the commercial, professional and industrial interests.

The Classified Section---
A guide to the many business interests, arranged under typical headings.

The Householders’ Guide---
A guide to the streets and avenues and the residents and tenants thereon.

The Guide Post to the City.
Is Never Further Removed From You Than the Nearest City Directory

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a privilege card will be sent you upon request to

THE PUBLISHERS
No Matter How Great Your Business Is—

the far-reaching, business-like City Directory can make it greater. It is consulted by countless people every day, who are searching for YOU and YOUR MERCHANDISE or SERVICES---if your advertising is not there, the business of these people is given to someone who has tried to get it.

YOU CAN'T AFFORD TO LOSE---
SO ADVERTISE!
TRADE! You like to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS
More goods are bought and sold through the Classified Business Lists of the Directory than any other medium on Earth.

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising is profitable. In connection with the classified business headings it is doubly effective.

*May we explain how and why it will pay you?*

The Publishers of this Directory
More goods are bought and sold through the classified business lists of the directory than any other medium on earth.
### Population of U.S. Cities of 30,000 Inhabitants or More in 1928

(United States Census Bureau's estimate as of July 1, 1928, excepting those indicated by asterisk (*) which are 1928 estimates from other sources.)

HILL DIRECTORY CO.'S (1939)
This Publication
Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
